Vsetin, Its Fight for Freedom by Richard Pavlik, originally published in the Czech language, was translated into English by TCGS member Darwin Machu and republished in 2013.

Consisting of 247 pages of first-person accounts of happenings during the final weeks of World War II in Vsetin County, Czechoslovakia, this book tells the story of days of persecution, hunger, uncertainty and fear. For many years during the course of history the people of Wallachia had been fighting for their freedom. Finally, in January 1945, the Fourth Czech Brigade was very instrumental in bringing the long-awaited freedom to Vsetin.
